

PARTNER FACT SHEET

Smarter Reservations, Seamless Service

**THE TWO-WAY SEVENROOMS POS
INTEGRATION, BUILT TO POWER
PERSONALIZED HOSPITALITY.**

SevenRooms, a leading reservation, seating, and guest experience platform (now part of DoorDash), connects directly to GoTab through a true two-way integration. Reservations, walk-ins, guest profiles, and deposits sync in real time between SevenRooms and GoTab—giving front-of-house teams the guest insight they need to drive better service, higher spend, and repeat visits.

KEY FEATURES

True Two-Way Sync

Data flows both ways—guest and reservation details sync to GoTab, while live order and spend data sync back to SevenRooms.

Automatic Tab Creation & Rich Guest Profiles

When a guest is seated in SevenRooms, GoTab automatically creates a tab, surfacing tags, preferences, spend history, and VIP status.

Integrated Deposits

Deposits and prepayments collected in SevenRooms apply directly to the guest's GoTab tab.

BENEFITS

Better Hospitality, Higher Spend

Staff see preferences, history, and VIP status on their handheld or screen, making personalized service and upsells easier.

A Connected Guest Experience

Guest profiles sync across every location, enriched with DoorDash online ordering data for a more personalized experience.

Streamlined Deposits & Accounting

Prepayments automatically apply to the check, simplifying reconciliation and reporting.
