

Where Operations & Competition Stay in Sync

SEAMLESS ACCESS, EFFORTLESS TOURNAMENTS, AND ELEVATED COMPETITIVE EXPERIENCES.

The GoTab and ggCircuit integration connects customer purchases with secure, authenticated game access. Purchases sync seamlessly between platforms for unified reporting, while venues gain full operational control over game availability, access, and hardware protection—delivering a smoother experience for players and staff alike.

KEY FEATURES

Secure Game Access

Delivers a seamless transition from purchase to authenticated gameplay with minimal staff involvement.

ggLeap Marketplace Integration

Guests purchase game time and choose titles through ggCircuit's Marketplace, connected directly to GoTab.

Unified Sales Reporting

Purchases in ggLeap sync automatically to GoTab, delivering real-time, transparent financial reporting across both platforms.

BENEFITS

Reduced Staff Overhead

Automated session activation eliminates manual check-ins, freeing staff for higher-value guest interactions.

Full Venue Control

Manage game access, availability, and hardware protection directly from the GoTab platform.

Real-Time Revenue Insight

Unified ggLeap and GoTab reporting gives venues instant visibility into all sales.
