

# Making it Easier to Make Great Things

The GoTab and FIVE x 5 integration creates a powerful advantage for distilleries by streamlining critical processes across both platforms. With this integration, inventory is automatically tracked and synced, ensuring that anything sold through GoTab is instantly depleted from the FIVE x 5 system.

## THE GOTAB & FIVE X 5 ADVANTAGE

This seamless connection enhances operational efficiency by providing accurate, real-time visibility into key areas such as inventory, compliance, reporting, sales, barrel management, packaging, and integrations with industry partners.

By combining GoTab's robust commerce platform with FIVE x 5's comprehensive tracking capabilities, distilleries gain a unified solution to manage operations with precision and confidence.

## KEY BENEFITS:

### Built by craft

Five x 5 is the only software solution purpose built by and for the craft distilling industry.

### Track Operations

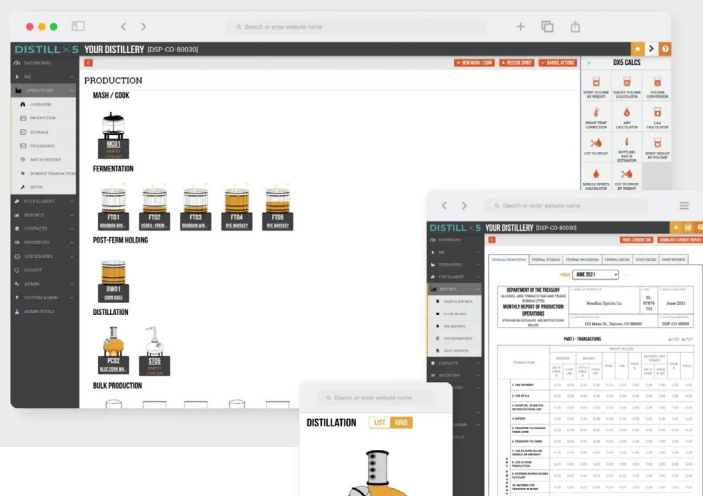

Create recipes and batch types, manage vessel occupancy, and utilize defined product streams.

### Reporting

Simplify TTB reporting and gain valuable insights through industry-leading reporting tools designed for distilling.

### Compliance

Take the guesswork out of compliance and simplify your workflow, saving you thousands.
