Sync Pours to Tabs Instantly

TABS, PAYMENTS, RFID, POURS— ONE SEAMLESS WORKFLOW

The GoTab + Napa Technology integration lets operators open tabs, accept payments, issue RFID cards, and track pours instantly—syncing to the right tab. One platform boosts profitability, cuts waste, and elevates guest experiences.

KEY FEATURES

Seamless Tab & Payment Sync

Every pour instantly syncs to the right GoTab tab, preventing errors and lost revenue.

RFID-Enabled Self-Serve

Hand guests secure, branded RFID cards so they can enjoy an easy, self-serve experience.

Precision Pour Control

Automatic pour tracking makes sure every drink is accurate, so guests enjoy the best every time.

BENEFITS

Boost Revenue

Drive profits with by-the-glass sales, self-serve options, and higher check averages.

Reduce Waste

Precision pouring and preservation eliminate spoilage and over-pouring.

Elevate Guest Experience

Guests enjoy perfectly measured pours, ideal serving conditions, and expanded choices.
