

FACT SHEET

Pocket POS

POS on Phone

The GoTab Handheld POS system is made for convenience. It has two versions: the Pocket POS and the Phone Only POS. The Pocket POS is a phone with a special sleeve that has a card reader. The Phone Only POS does not need a card reader.

PLACE ORDERS AND RECEIVE PAYMENTS ANYWHERE

Our Handheld POS options have a large screen, long battery life, and a compact design. They are very efficient at taking orders and processing payments. They also help with smooth communication between the front and back of the restaurant.

KEY FEATURES

Guest-Centric Technology

Connect with guests seamlessly, free from the hassle of large equipment or complicated interfaces, using technology that effortlessly fits in your server's pocket.

Flip-to-Pay Convenience

Allow guests to review their check and discretely select a tip amount at their leisure. The Pocket POS screen conveniently rotates to face the visitor when displaying the bill.

Tap-on-Glass Compatible

Receive card payments without a card reader through the GoTab Phone Only POS installed on compatible Android devices; iOS support will be available soon.

Fast, Efficient Processing

Servers can place orders and process card transactions faster than ever, without having to leave the guest's side, allowing easier upsells and higher guest satisfaction.

Process All Payment Types

Accommodates nearly all payment methods, such as credit cards, cash, mobile wallets, and contactless transactions. The Phone Only POS processes payments directly from a phone.

Manage Products

Comprehensive product management capabilities enable employees to adjust stock levels, 86 items, set product delays, and more, all without needing to approach a fixed POS terminal.

KDS Screen Integration

When servers place orders using the Handheld POS, requests are automatically processed and directed to the appropriate stations on the kitchen display system (KDS).

Loss Prevention

Every order made via the Handheld POS gets authorized to confirm funds are available for the ordered amount. This feature will help your staff eliminate walk-outs and missed tips.

OVERALL BENEFITS

GoTab provides operators with resources and best practices that enhance guest-focused ordering, payment, and fulfillment, enabling them to attain, on average:

35-50%
increased check
totals

Personalized Guest-Centric Convenience

Keep the tech in the background so your service stands out. Staff can communicate with the back-of-house from anywhere, so they can do more work with fewer steps.

25%
quicker table
turnovers

Fast Pre-Auths On the Fly

Authorize new tabs directly from the Pocket POS and Phone Only POS to ensure payment is always attached to a tab.

30-50%
improved labor
efficiency

Monitor Sales, Comps and Voids

Access complete sales data instantly, enabling managers to implement required changes proactively. Manage discounts and cancellations directly from the device, eliminating the need to visit a POS terminal.
