

PARTNER FACT SHEET

Sell Tickets, Serve Guests— All in One Tab

**MOVIE TICKET SALES + REAL-TIME RTS SYNC
= A SEAMLESS, UNIFIED GUEST EXPERIENCE
AT THE POINT OF SALE.**

The GoTab + Ready Theater Systems integration brings ticketing directly into the GoTab POS, allowing theater staff to browse showtimes, select seats, and complete ticket sales as part of a standard GoTab transaction—no separate system required. Built for dine-in cinema and entertainment venues, this integration connects your F&B and ticketing operations into one streamlined guest experience.

KEY FEATURES

In-POS Ticket Sales

Sell RTS movie tickets directly within GoTab POS, including live showtimes, interactive seat maps, and real-time seat availability.

Unified Tab Experience

Tickets are added directly to the guest's check, allowing operators to manage payments, refunds, comps, and receipts through standard GoTab workflows.

Real-Time Bi-Directional Sync

Ticket sales, seat holds, refunds, and inventory updates sync instantly between GoTab and RTS, ensuring accurate reporting and seat availability across both systems.

BENEFITS

Streamlined Operations

Eliminate the need to toggle between separate ticketing and POS systems—staff handle everything from one interface.

Elevated Guest Experience

Guests enjoy a single, cohesive transaction for both tickets and F&B, with one consolidated receipt at checkout.

Accurate, Real-Time Reporting

Bi-directional data sync between GoTab and RTS keeps seat availability, sales data, and reconciliation up to date across both platforms.
